# Educate Your Dreams

The typical dream is an inspirational thought, a desire to have, reach or be. It is conceived within the mind and often it remains there or simply expressed as boisterous, yet faint words with no action. An "Educated Dream" is built upon an evolving confidence in self, combined with an Action Plan and a people-based Support Team.

We all have dreams:

**Career Dreams - (Doctor, Lawyer, Engineer),**  
**Sports Dreams - (Football, Baseball, Basketball – Star),**  
**Financial Dreams - (Make a Million dollars),**  
**Business Dreams - (Entrepreneur, CEO),**  
**Entertainment Dreams - (Musician, TV and Movie Star)**

Why Don't Most People Achieve Their Dreams?

## **We are Self-Oriented:**

We want Easy. We want Fun. We want Freedom. We want Attention. We want Friends. We Want Love and to be Love. And We Want Now!

## **Achieving Dreams**

Is Not Easy. Requires Work. Requires Commitment. Requires Special Friends. Requires Serving others. Requires Time.

**Requires a Different Mindset**
